

## Titles- Laziness: A <sup>misunderstood</sup> Misguided Notion

According to the author, the ~~chaos~~ chaos in this world is due to the misdirected actions of the people who become angry when the time is wasted. The world is in ~~chaos~~ <sup>up</sup> stemming from the lack of kindness and attention instead of so called laziness ~~that~~ everyone predicts. The leaders, in the past, have done the same mistake <sup>due to</sup> of misdirected energy. If they had done nothing instead of taking actions without thought or purpose, today's world might <sup>have</sup> been in ~~the~~ good trim, ~~than~~. Every now and then, people should rethink that doing nothing is not the cause of ~~evil~~ in this world but the ~~misdirection~~.
