Pakistan is fifth largest big country in the world as a population wise, ~~where almost 60% population is~~ consists on youth, under 30 years. There is huge potential in IT sector.

Due to lack of jobs in Pakistan, youth in Pakistan is turning towards online and E-commerce.

Online platforms in Pakistan like Daraz, are ~~providing a handsome margin~~ of income.

~~Specialty, it is great opportunity for females~~ in Pakistan, where on daily bases harassment cases in work places are observed.

There are a lot of hurdles in online and E-commerce sector.

in Pakistan. Main hurdles
 are included; lack of
 interest and supervision
 of government on official
 level. To support youth to
 come forward in this
 sector - Second main hurdle
 is, fraudulent activities and
 online scamming in this
 regard. online, things/products
 are offered something other
 but when are sent,
 on the spot, these are
 unmatched -
 There should be necessary
 step to promote this
 sector, because it has
 huge scope to promote
 economy of Pakistan.
