- VI. Conclusion

The Essay:

When human society was in its early stage, it faced multiple problems including, inequality, poor governance, and lack of resources. To overcome this, communities created structure of authority to progress. In the modern era, prosperity depends on how effectively states address their political, economic, and social challenges. Pakistan is also one such state that continues its journey towards achieving lasting prosperity. The basic problems in prosperity of Pakistan includes, threatened

principle of separation of power and corruption crisis. Furthermore, high inflation and low literary rate are also causes of uprisings in Pakistan. To deal with these problems there is a need of political development through judiciary independence, separation of power, and rule of law. In addition, promotion of accountability, eradication of terrorism, and disaster management are also crucial. The pathways to Pakistan's economic development includes, reduction in inflation, and modern technology to advance agriculture sector. Low taxes for small businesses and imports cut are equally crucial for economic development of Pakistan. Additionally, Pakistan's social development is also necessary for its prosperity. Social development can be ensured through religious tolerance, and quality education for all. Lastly, gender equality and women empowerment can ensure social development. In a nutshell, Pakistan's way to prosperity is facing hurdles in its problems.

~~its way. However, effective strategies for political, economic, and social development can transform these problems hurdles to ^{into} pathways to Pakistan's prosperity.~~

plz write with subject please

~~By ^{moving} towards the pathways to Pakistan's prosperity it is important to discuss the basic problems Pakistan is facing currently, one of which is compromise in separation of power. Separation of power is the division of legislative, executive and judicial branches as separate and independent bodies. These three bodies are interfering in each other's duties and disrupting the separation of power in Pakistan. Compromise of separation of power is one of the major problem in the way of Pakistan's prosperity. In recent years, judiciary has intervened in the matters that fall directly under executive authority. For instance, the disqualification of Prime Minister Yousaf Raza Gillani and Nawaz Sharif. In a nutshell, these overreach of one government body on another disrupts separation of power in Pakistan.~~
