

# Topic : Pathways to Pakistan's prosperity.

## Outline

### Introduction:

A. Captivating opening that explores the challenges and opportunities of pathways to Pakistan's prosperity.

B. ~~Background~~ of Pakistan's current situation shall be discussed

C. Thesis Statement: Pakistan can achieve prosperity by using multidimensional strategies in its long-term, mid-term and short-term challenges and social, political & environmental challenges. Pakistan must use its resources, geographical position, youth and also give them some leverages.

### 1. Long-term challenges & reforms

- Pakistan should opt diversified, export-oriented economy rather than consumption-based strategy.
- Shift from traditional sector to special technological sectors is needed.
- Transition of cities into green cities and green energy.
- Robust infrastructure in cities and digital infrastructure development.

## 2. Mid-term challenges & reforms

• Economic reform by enhancing trade policies, improving fiscal responsibilities and having correct data & statistics of current situation.

• Promote industrialization and support small and medium-sized businesses.

## 3. Short-term challenges & reforms

• Advancement in education and curriculum  
• Effective governance and decentralization of power

• Disaster management control is needed

## 4. Usage of Resources

• Correct use of natural resources and Pakistan's geographical position for achieving prosperity

• Intellectual environment for Pakistan's youth

## 5. Social challenges & reform

• Need to eradicate ethnic misunderstandings and develop unity in them.

• Need of Justice and equality

## 6. Political challenges & reforms

• Need of anti-corruption measures

• Transparent public procurement process
