7.2. Gender Equality requires a holistic approach.

8. Conclusion: Education is most powerful and effective weapon to achieve gender equality, but it must be supported by educational effectiveness, encourage of gender rights through out globally and locally, in politics, reduced child marriages, and economic initiatives.

## Introduction:

Education has always been regarded as the most powerful force that can transform societies and shape their future.

It gives people knowledge, confidence, the ability to question unfair practices, and break social barriers.

Gender Equality means giving equal rights, chances, and respect to both men and women. It is very important for the progress of society because no country can move forward if half of its people are left behind. Education helps break stereotypes and opens the door for equal opportunities.

Properly follow structure of introduction

Start with the hook
