

Muslim Ummah faces various challenges in the 21st Century. As muslim countries cover 20-25% of the world population and contribute twenty percent of GDP world wide, muslims countries, despite ~~of~~ enrichment in natural resources and geostrategic leverage, are grappling with economic constraints. The root cause of behind ~~stg~~ substantial challenges is lack of unity among muslims. Because they prioritize national interest over Ummah's solidarity. In addition, reliance on others countries for economic growth weakens the ~~base~~ ~~of~~ strength ~~of~~ and potential of the countries, leading to unutilization of natural resources. For example, Pakistan is a muslim state, depending on other countries for loan and aid, regardless of significant resources within a country. As it is enriched of minerals, cotton and gas; however due to less utilization and lack of value addition compell country to borrow products from other countries. Secondly, political intervention

The US-Israel and Iran escalating war has risen the energy crisis worldwide. The closure of Strait of Hormones which facilitates 20% of oil trade globally, impacted country's economy significantly. The unprecedented rise in price of petrol and oil has pushed citizen towards instability. By given the inflammatory situation, the govt of Pakistan has taken austerity measure to combat the rising energy crisis. Such as, these measures include, reducing the working days, (4 day a week) limiting unnecessary travel, promoting remote work and temporary closing certain public institutions. As these measures playing significant role in mitigating expenditure of citizen. Moreover, transition towards solar energy is increasingly adopting by people. The installation of solar energy has drop ~~20pc~~ 40pc of import of oil and gas in 2022 & 2024. As in recent situation \$8 billion to 12b import cost is saved this year along. Therefore, utilization of energy resources within countries and production of energy is necessity of the countries for the growth of economy globally.
