~~Precis:~~

Lush green parks play an integral role in the mental health development especially in the cities which experience great hustle. Beside scenic beauty of the places, they also serve other purposes as well. Those who ~~pro~~ prioritize mental and environmental health put their maximum effort in environmental preservation. Maintenance of these parks and their aesthetic is a shared responsibility. Environmental stability and fostering harmonious bond between humans and environment is the fundamental factor in creation of parks.

~~Title:~~ Green Parks: An Integral component of human's life.
