In the museum of United Kingdom, the term Palestine is replaced with Canaanit descent.

This change was done in Egypt and mediterranean section.

This move was faced with protesters who filed the petition against it. Moreover, this action, supposedly, was done because of pressure from lawyers of Israel. They think that this term is giving false hope of continuity. Furthermore, after being accused, the authorities of museum clarified that only 2 amendments were made. The name Palestine is present. They did this silently due to ongoing Palestine issues. So, history need to be dealt with accuracy and honesty.

Total: Removal of history by historians
