Paragraph  
=> Globalization:-

Those entities which are connecting with each other, as a cultural, economical, war like media, like that is globalization. Those countries which they are sharing their culture through media like Turkish dramas and Korean Dramas. Many countries they are connecting each other through war, fighting and splitting fear and genocide. for example in Gaza war situation. Moreover, countries are doing trade sharing goods and services they are connecting through trade like Pakistan China and Saudi, India. Overall the globalization connects countries with each one.

there is no sense of this para  
basic grammar is weak and sentences dont  
have any sense of coherence
