

①

Topic = Economic prosperity of
a nation is directly proportional
to the level of literacy
in it.

Outline

① Introduction

1.1- Hook

1.2- Background

1.3- Thesis Statement

Literacy is the fundamental driver
of economic prosperity as it
strengthens human capital, ensures
innovation and entrepreneurship, and
enhances technological competence. Although
factors such as political stability,
stable, and security contribute to
economic growth, they ultimately
depend on a literate population
for their ~~effective~~ functioning
and sustainability.

② Economic prosperity of a nation is directly proportional to the level of literacy in it.

2.1- High literacy level produces skilled workforce, leading to rise in productivity.

2.1.1- Rise in overall GDP growth, leading to economic prosperity.

3 2.2- High literacy rate leading to an internationally employable workforce and increased foreign remittances.

2.2.1- Current account surplus due to

foreign ✓ influx through
remittances, improving
BOP.

2.3- High ✓ literacy rate
creates greater social
awareness, ✓ leading to
~~stronger~~ CSR practices.

2.3.1- Local ✓ community
trust in enterprises
increases, ✓ leading to
higher sales ~~and~~ and
economic growth.

2.4. literate ✓ society ~~fosters~~
entrepreneurial ✓ mindsets
among people, ~~which~~
~~generates~~ employment
~~opportunities.~~

2.4.1- Charous ✓ since
a small startup, now
30+ branches ✓ across

Pakistan, and generated
numerous job opportunities.

technological proficient population
which enables AI-based
security system.

2.5.1- Concept of ubiquitous
computing, known for remote
surveillance and monitoring
ultimately attracting FDI
in country.

2.6. High literacy rates
improves health sector,
enabling healthy and
energetic workforce, leading
to higher work efficiency.

2.6.1- Better healthcare
facilities reduces diseases
and absenteeism, creates

2

considered ✓ workforce,
leading ✓ to ✓ economic prosperity.

2.7. literate ✓ society
fosters ✓ women's education,
leading ✓ to ✓ a career-
oriented women workforce.

2.7.1- Career oriented women
workforce ✓ reduce ✓ lower
population growth, ✓ thus
reduced ✓ pressure on
resources, ✓ not leading
effective utilization ✓ of
existing resources enabling
economic growth.

③ Economic prosperity ✓ of a
nation is ✓ directly proportional
to the level ✓ of literacy
in it, but literacy rate
is not core ~~factor~~ - ✓ A
counter narrative.

3.1 - Political stability
leads to economic
prosperity.

Rebuttal → 3.1.1 → Literate
society produces leadership
that is aware of
their roles and
responsibilities, which ultimately
~~causes political stability.~~
~~∴ thus economic stability.~~

3.2 - Enhancing trade
with neighbours specially,
leads to economic
growth of the country.

Rebuttal → 3.2.1 - Literate workforce
enables quality production
and innovative goods,
that makes exports
competitive, ~~and~~ leading
to successful
trade.

3.2.2- literate people are able to bargain effectively due to their strong negotiation skills, leading to better trade agreements and economic prosperity.

3.3- Economic prosperity depends on how secure the state is from terrorism. Safe environment leads to better business opportunities.

Rebuttal 3.3.1 → literate society does not support extremism or radicalism and also does tolerate violent ideologies, therefore ensuring political stability and gain in investor confidence, thus economic prosperity.

4. Conclusion.
