# Pakistan's Agricultural Decline and ways to counter it

## 1- Introduction

**Thesis statement:** Pakistan's agriculture sector has declined, mainly due to outdated techniques, man-made disasters, and failed policies. The decline must immediately be countered, before it is too late.

## 2- Reasons for the decline of agriculture sector of Pakistan

- 2.1 Poor irrigation and farming system
- 2.2 Climate change disasters - 2010s and onwards
- 2.3 Water scarcity in Pakistan
- 2.4 Discouragement of farmers by small land holdings
- 2.5 Interference of middlemen
- 2.6 Solid Wastes mismanagement - soil degradation
- 2.7 Misuse of funds provided for agricultural lands
