g) - Holding prominent position in the eyes of the Muslim states

h) - Reducing political deadlock

i) - Emerging of Pakistan as a major economic hub

3) - Reasons behind the progress of Pakistan in the year 2025:

a.) - Amicable Civil-Military relations

b.) - Rapid and Cognitive decision making

c.) - Active response from the State institution

4) - Conclusion

In the third decade of the 21st century, the year 2025 has proved fruitful for the state of Pakistan. In this year, the Islamic Republic of Pakistan has taken unprecedented steps, which has been proved beneficial for the country. However, there are many manifestations which prove the progress of the country in that particular year. Some of the incarnations of the developments of Pakistan

include the defeat of India in the trading of fires, exposing of the belligerent attitude of New Delhi in front of the World, improving economic conditions of Pakistan, developing cordial ties with other countries, managing links with the rich-foes rivals and powerful states, emerging defensive ties with other states, gaining prominent position in the eyes of the Muslim Ummah, reducing constitutional deadlock, and the emergence of Pakistan as a major economic hub. These all are embodiments which prove the fruitfulness of the year 2025 for Pakistan. Moreover, there are many factors behind these development of the country. These reasons include amicable civil-military relations, rapid and cognitive decision making technique and the prompt response from the state's institutions to any development. Thus, the year 2025 has proved fruitful for Pakistan. There are innumerable manifestations which show the benediction of

this year upon the country; however, there are various reasons behind the blessings of this year.

Moreover, the Islamic Republic of Pakistan has taken unprecedented steps, in the year 2025, which has proved beneficial for the country. These steps and the achievements of Pakistan are as described below:

Taking into account, the defeat of India in skirmishes has proved advantageous for the country. This was the moment, which had placed the country as a shining star before the world. In may conflict with India, the armed forces of Pakistan and the civilians showed bravery. It led to the downing of Six Indian Raphael Helicopters. This win of Pakistan was praised by the whole world. Still, it has been being praised by the world leaders. This praising is promoting the image of the country in the eyes of the world's powerful states. Thus, the conflict ^{between} of Pakistan

and India in the month of May 2025 proved beneficial for the country.

Moreover, the year 2025^{has} proved beneficial for Pakistan because in this year, the country has exposed the real treacherous attitude before the world. On the pretext of the false flag operation, India launched attacks on Pakistan. In reciprocate, Islamabad not only responded bravely to this attack but also exposed the belligerent attitude of India. In the last month of the year 2025, the experts of the United Nations declared the suspension of the Indus water Treaty as a baseless act of India. Thus, the year 2025^{has} proved fruitful for Pakistan because in this year the country has become successful in exposing the pugnacious attitude of arch-foe rival - India in front of the world.

Evidently, in the year 2025 - Pakistan has achieved economic

stability. Before this year, the country had been facing economic catastrophes. Surprisingly, in this year - Pakistan has achieved economic stability. It is evident from the fact that the circular debt of Pakistan in the year 2023-2024 was Rs 2.3 trillion, but now it stands at Rs 1.6 trillion, according to the report of Pakistan Bureau of Statistics. This is how the country has improved its economic condition in the year 2025. Thus, the year 2025 has truly ameliorated the economic conditions of the country.

It is obvious that strong nations build ties with strong countries. In the year 2025, Pakistan has developed amicable links with powerful and emerging states. It is clear from the fact that Pakistan's leadership attended the summit of the Shanghai Cooperation Organization with great prestige. At this meeting, the premier of Pakistan met

with the world's leaders like the President of Russia - **Vladimir Putin**. This meeting paves a way for building amicable relations with ~~the~~ Russia. Hence, the ^{major events of} year 2025 helped the country ~~to~~ in building ties with other countries.

It seems that the leadership of the country has learned a lesson from the year 2025 how to build maintain relations with powerful states. In this year, Pakistan has maintained cordial and amicable links with the US and China. Both are rival countries. However, in the year 2025 - the US and China showed great interest in building ties with Pakistan. The reason is that the country has maintained link with them according to the nature of their interest.

Therefore, it has proved fruitful for the country. Hence, in the year 2025 - Pakistan has maintained close links with the power states.

It is crystal clear that in the year of 2025, Pakistan has expended its defensive collaboration with major regional powers. Pakistan is a developing state. It needs robust defensive system because it lies at a hotbed. To keep in mind, this perspective, Pakistan signed **Strategic Defence Mutual Agreement** with Saudia Arabia. It not only helps Pakistan in the management of its nuclear plants, but also strengthens its nuclear capabilities. Hence, in the year 2025 - Pakistan developed defence collaboration with other nation.

It is obvious that defence collaboration with Saudia Arabia ^{has} enhanced the image of Pakistan in the eyes of the Muslim states. To maintain this privilege, Pakistan has offered other Muslim countries for the joining of this defence pact. Moreover, the role of Pakistan - which it has played in the ceasefire between Israel and the Palestine has also improved the

standing of the country in the eyes of the Muslim States. Hence, the country has gained a prominent position in the heart of the Muslim Ummah in the year 2025.

It seems that the decline in political and constitutional deadlock has turned the image of the country in the year 2025. Previously, Pakistan has faced innumerable constitutional deadlock. Astonishingly, in the year 2025 - the ~~Pak~~ Country has passed the **27 amendment without any constitutional and political deadlock**. Therefore, reduction in the political deadlock in the passing of the amendment has proved a turning point for Pakistan in the year 2025.

It is crystal clear that Pakistan lies at the crossroads of South Asia, Central Asia and the Middle. It is because of this position, Pakistan has gained economic prominence in the year 2025. Now, every country wants

to invest in Pakistan. It can be proved from the fact that the US is interested in economic deals with Pakistan and China is interested in the enhancement of the CPEC. Thus, Pakistan has become an economic hub in the year 2025.

Additionally, there are many factors behind the renowned position of Pakistan in the year 2025. These factors are as annotated below:

First, amicable civil-military relation is the major driving force behind the eminent position of Pakistan. The country has maintained and developed potent ties with powerful states due to this cordial cordiality. History shows that the US has maintained potent ties with Pakistan in the military rule and China has built robust link with Pakistan in the civilian rule. Therefore, the ~~ext~~ cordial civil-military relation is the major factor in building and maintaining links with powerful states.

It looks that rapid and cognitive decision making strategy is also a major force behind the development of Pakistan in the year 2025. The smooth running of the state institutions shows and proves this point. The defeat of India in the conflict of May 2025 is also the result of this strategy. Moreover, the decline in the gigantic amount of the fiscal deficit is also the result of this strategy. This measure has reversed the country from the edge of default. According to the Economic Survey of Pakistan, the current fiscal deficit of Pakistan is Rs 2.8 trillion. It has been reduced from Rs 7.3 trillion. Hence, rapid and cognitive decision-making strategy has turned the country's image.

Moreover, the active response strategy ~~has~~ of the state's institutions has also worked as a major force behind the development of 2025. It has

helped a lot in countering the unprovoked allegations of India. It is because of this measure, India has beared huge economic loss. In response of the suspension of the Indus Water Treaty, Pakistan has promptly closed its airspace for India. Therefore, this strategy has proved fruitful for the country, behind the improved image of Pakistan.

In long and short, Pakistan has witnessed unprototyping developments in the year 2025. It is because of these development, the country has turned its image in the global arena. The country has achieved its goal by defeating India in May conflict, exposing India in front of the world, improving its economic conditions and by developing defence collaboration with other countries. Pakistan, Moreover, Pakistan has achieved this success due to amicable Civil-Military relation and by adopting the strategy of quick response.
