**Mock Exams CSS-2026**  
**January 2026 (Final Mock)**  
**GENERAL KNOWLEDGE-I**  
**GENERAL SCIENCE AND ABILITY**

<b>TIME ALLOWED: THREE HOURS</b>	<b>PART-I (MCQS)</b>	<b>MAXIMUM MARKS = 20</b>
<b>PART-I(MCQS): MAXIMUM 30 INUTES</b>	<b>PART-II</b>	<b>MAXIMUM MARKS = 80</b>
<b>NOTE:</b>		
i. <b>Part-II is to be attempted on the separate Answer Book.</b>		
ii. <b>Attempt ONLY FOUR questions from PART-II by selecting TWO questions from EACH SECTION. ALL questions carry EQUAL marks.</b>		

**PART-II**  
**(SECTION-A)**

**Q. No. 2**

- a. Describe the structure of universe according to big bang theory.
- b. Define urinary system & explain the working of nephron.
- c. What is Un-balanced diet? How it affects the healthy living?
- d. Describe the structure and functions of cell wall, cell membrane, cytoplasm and mitochondria.

**Q. No. 3**

- a. How global warming can be reversed?
- b. Define ceramics. Give properties and applications of ceramics.
- c. Explain the working of Optic fibers & Mobile phone.
- d. Define the following and give examples:
  - Food Additives
  - Food Preservatives
  - Food Adulteration
  - Food Contamination

**Q. No. 4**

- a. Explain the role of heart and blood vessels in circulation.
- b. What is cyclone? Describe the formation of cyclone.
- c. Enlist the functions of:
  - Carbohydrates
  - Proteins
  - Fats
  - Calcium
  - Iron
- d. How remote sensing can be employed for environmental purposes?

**Q. No. 5**

- a. What is DRM? Give the importance of Risk assessment in DRM.
- b. Define biofuels. Explain the production of biodiesel and bio gas.
- c. What is digestive system? Explain the role of stomach and small intestine.
- d. Define plastics. Give their properties applications and environmental risks associated with plastics.

**(SECTION-B)**

**Q. No. 6**

A. Pointing to a woman, Ahsan said, "Her granddaughter is the only daughter of my brother." How is the woman related to Ahsan?

B. The ratio between the length and the breadth of a rectangular park is 3:2. If a man cycling along the boundary of the park at the speed of 12 km/hr completes one round in 8 minutes, then the area of the park (in sq. m) is?

C. In a two-digit number, if it is known that its unit's digit exceeds its ten's digit by 2 and that the product of the given number and the sum of its digits is equal to 144, then the number is?

D. The L.C.M. of two numbers is 48. The numbers are in the ratio of 2: 3. Then the sum of the number is?

**Q. No. 7**

A) If 40% of a number is equal to two-third of another number, what is the ratio of first number to the second number?

B) On selling 17 balls at Rs. 720, there is a loss equal to the cost price of 5 balls. The cost price of a ball is?

C) A man is 24 years older than his son. In two years, his age will be twice the age of his son. The present age of his son is?

D) Rashid and Kamran are working on an assignment. Rashid takes 6 hours to type 32 pages on a computer, while Kamran takes 5 hours to type 40 pages. How much time will they take, working together on two different computers to type an assignment of 110 pages?

**Q. No. 8**

A. There are five different houses A to E in a row. A is to the right of B and E is to the left of C and right of A. B is to the right of D. Which of the houses is in the middle?

B. If you start running from a point towards north and after covering 4km you turn to your left and run 5 km, and then again turn to your left and run 5km and then turn to left again and run another 6km and before finishing you take another left turn and run 1 km then answer questions based on this information.

How many km are you from the place you started?

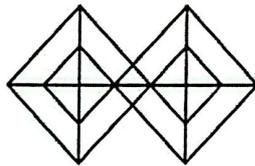

In which direction will you be running while finishing?

After taking the second turn, in which direction will you be running?

From the finishing point if you have to reach the point from where you started, in which direction will you have to run?

C. Find the odd man out in the following anagrams. (a) THRSI (b) AOTC(c) EOUBSL (d) KTRIS (e) RETAEWS

D. How many triangles can you find in the figure given below?

\*\*\*\*\*

***Best of Luck for CSS-2026***

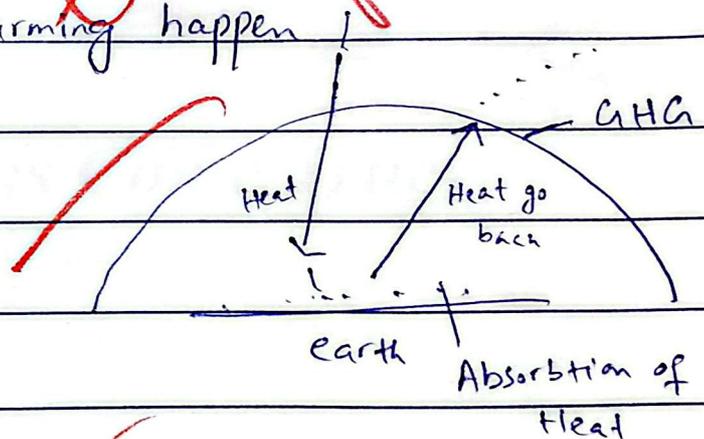

Start From Here

Q3

(a) How global warming can be reversed.

Global warming: Global warming happens when heat enters into earth from space and ~~from~~ earth absorb the heat and when it releases the heat from earth green house gases absorb the heat and minimal heat goes out in space back, and earth temperature keep warm. If the absorption amount of heat increase then Global warming happen

Methods global warming can reversed.

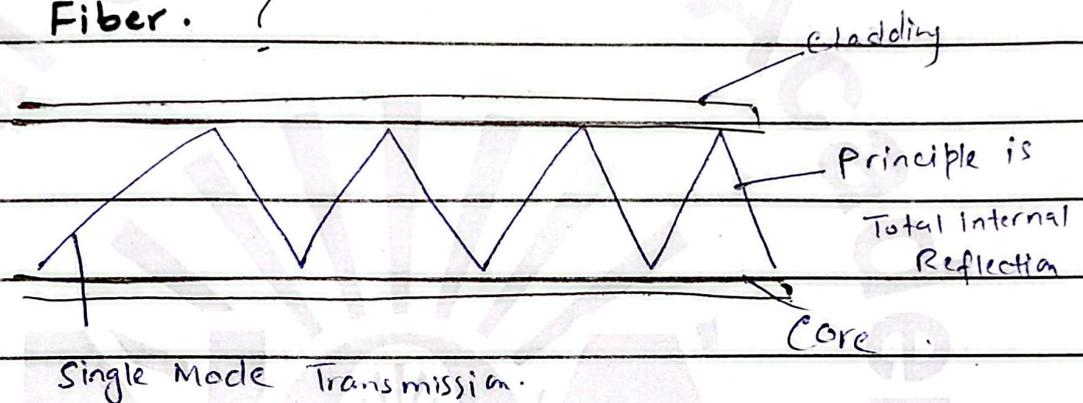

i) Reduce the carbon emission of related industries.

ii) Shift non renewable source of energy into renewable source of energy.

- iii) Reduce the use of cars, bikes and use public Transport.
- iv) Use Electric vehicles.
- v) Run the Campaign of Awareness.
- vi) Increase the forestation.

### (C) optical fiber & Mobile Phen.

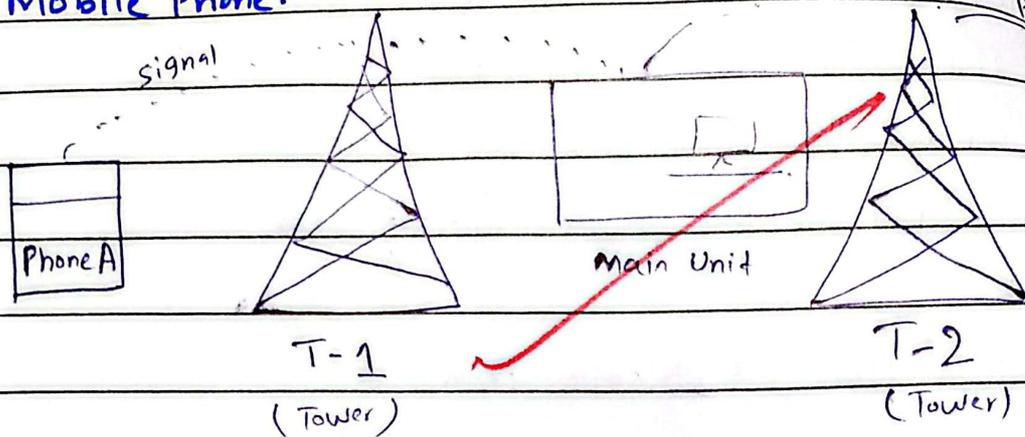

#### Optical Fiber. ?

#### Working.

- i) The Principle for the transmission of data use in optical fiber is Total internal reflection.
- ii) The Transmission can be single mode or Multimode
- iii) The Jacket preserve the Fiber from external environment.
- iv) The data transmit very Speedy - like the speed of light.

## Mobile Phone.

### working:

- i) First Phone A connect with Tower through SIM.
- ii) Phone A Dial the call.
- iii) The signal connect the Tower through the wave.
- iv) Tower A send the information of call to Main unit.
- v) The main unit find the nearest Tower.
- vi) And connect with nearest Tower of Phone B.
- vii) Tower 2 recive the signal and give the ring on Phone B.
- viii) When Phone B pick the call, connect buit up.

Q/A

- **Food Additives:** Food additives means the specific amount of chemical add into food, that increase the shelf life of food. This procedure is legal and mentioned on food packet. And it is not harmful for health.

Example - Packet of vegetables.

**Food preservation:** Food preservation is a technique in which different methods use to preserve the food. Like cooking, Boiling, UHT, Chilling, Freezing.

Like - Powder milk.

**Food Adultration:** In food adultration, the b. seller use different method to increase the quantity through different ways for the purpose is behind to make profit. Like e.g - Addition of substance in food, papaya seeds mix in black paper.

**Food contamination:** Food contamination meas addition of substance add into food unintentionally. It not happen by plan. It happen due to use of unhygenic methods.

Exemple - Hair in milk -

Q. No: 4

Q4 Part (a)

(a) Heart and Blood vessels.

Heart is the main organ of human body. The main function of heart is to take the deoxygenated blood from body and send to lungs, and when that deoxygenated blood convert into oxygenated blood and received by the heart. And heart send again the oxygenated blood to human body.

There are the blood vessels that help the human body organ for the transmission of Blood. The capillaries function is to transmit the oxygenated blood to the human body. The Arteries function is to gather the deoxygenated blood and give that blood to heart. And heart convert the deoxygenated blood into oxygenated blood.

Function :

C

Functions.

Prot -

**Carbohydrates** - Carbohydrates are the main, quick and large source of energy - Example - Wheat, Rice.

**Protein** - Meat is the main source of protein. That provide energy. Like - Fish

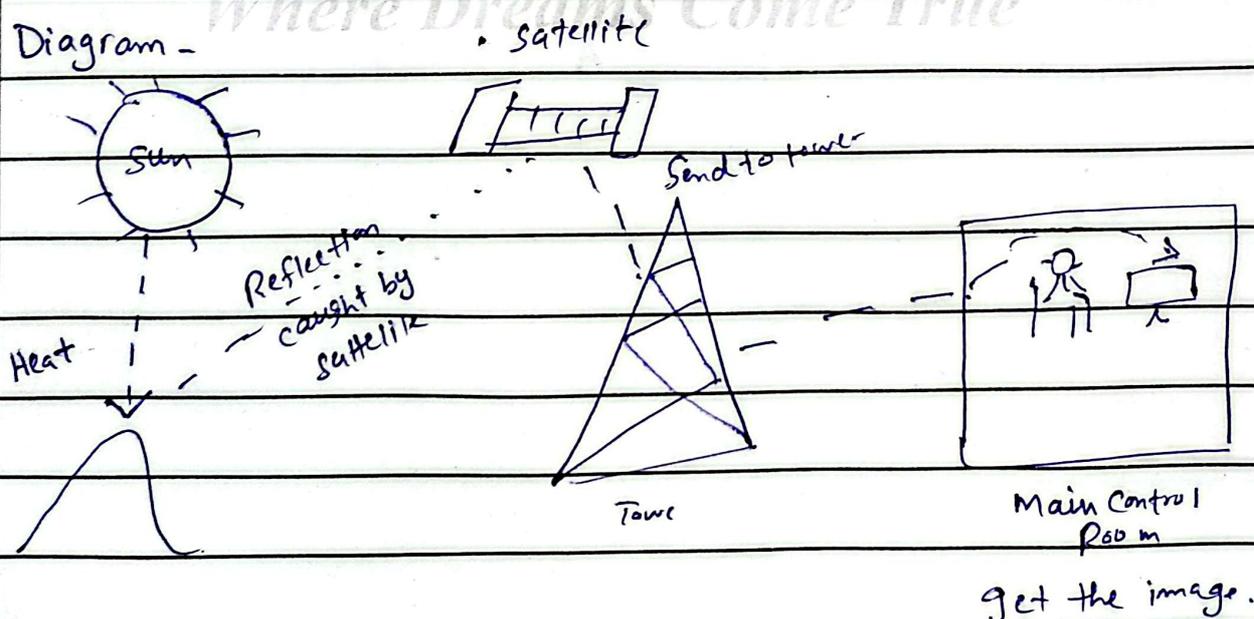

**Fats** - Fats are the source of energy and can be preserved in human muscles and when it need it provide energy - e.g Butter.

**Calcium** - Calcium provide energy and it help into growth and to make bones strong - Example - Milk, Banana.

**Iron** - Iron provide energy and it help in productive growth - Example - Leafy green vegetables.

d Remote Sensing -

Diagram -

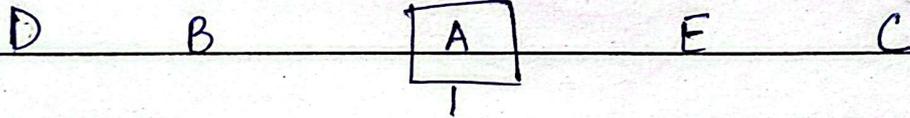

Uses -

- i) Remote sensing using in different field.
- ii) It is using to get the image - Military & security purpose.
- iii) In environment Remote sensing helped us to find the determinet of environment of that space that we can not go.
- iv) Like we take measure befor any disaster happen.

Q8

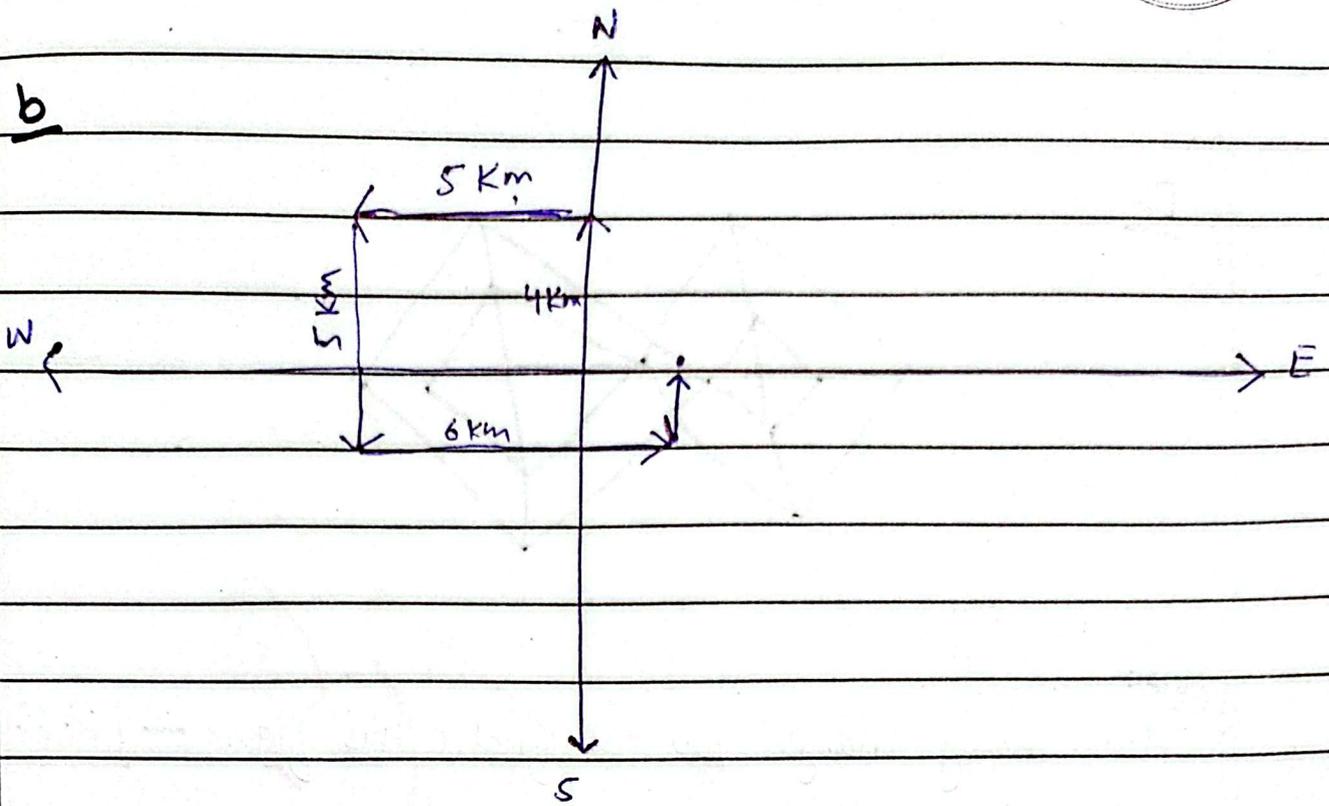

Section B

(a)

Middle House.

Middle House is = A

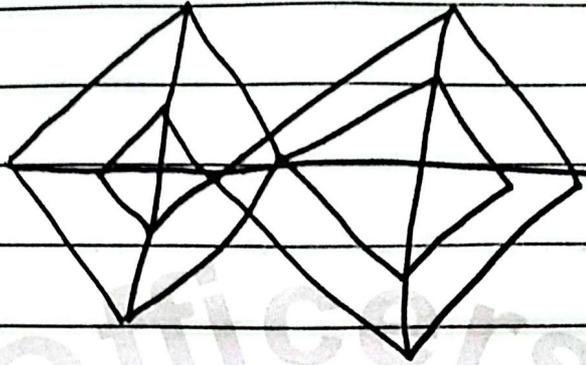

How many km you are away from start ~~1~~ 1 km

In which Direction running ~~finished~~ - North.

After taking the second ~~turn~~ in which direction you be running. South.

From the finishing point ~~if~~ you have to reach the point from where you started in which direction you will have to run -  $\rightarrow$  West.

10

Ans:-

How many Triangle you can find in this figure -

22 Ans

Rough work -

Q7

$$40\% \text{ of } A = 2:3$$

(a)  $40\% \text{ of } A = \frac{2}{3}$

$$60\% \text{ of } B = 1 - \frac{2}{3}$$

$$60\% \text{ of } B = \frac{3-2}{3}$$

$$60\% \text{ of } B = \frac{1}{3}$$

$$60\% \text{ of } B = 1:3$$

The ratio will be  $1:3$

(b)

17 balls sell Rs 720.

Loss = cost price of 5 balls.

Cost price = ?

$$\text{Loss price} = \frac{720}{17} \times 5 = \text{Loss}$$

$$= 720 - 144$$

Cost price = 576

$$\begin{array}{r} 2 \ 17 \\ 17 \\ \hline 17 \end{array}$$

$$\begin{array}{r} 51 \\ 17 \\ \hline 68 \end{array}$$

$$\begin{array}{r} 720 \\ 144 \\ \hline 576 \end{array}$$

C

Present

Before / After.

Man

$$24x.$$

$$(24x ~~+~~) 2$$

Son

$$x$$

$$x+2$$

$$(24x+2) 2 = x+2$$

$$(24x) 2 = x+2$$

$$48x+4 = x+2$$

$$48x = x+2$$

$$48x - x = -4 + 2$$

$$47x = 2$$

$$47x = -2$$

$$x = \frac{2}{47}$$

$$24x + 2 = 2x + 4$$

$$22x = 2$$

The present age of his son is = 11 years

$$\text{Kamran type 110 page} = 110 \times 7.5$$

$$\text{Kamran type 110 page} = 825 \text{ Minutes}$$

$$\text{Kamran type 110 page} = 13.7 \text{ Hours}$$

$$\begin{array}{r} 110 \\ \times 75 \\ \hline 550 \\ 7700 \\ \hline 8250 \end{array}$$

$$8250$$

$$\underline{825}$$

$$60$$

$$13.7$$

$$\begin{array}{r} 55 \\ + 15 \\ \hline 825 \end{array}$$

$$825$$

$$60$$

$$+ 2$$

$$41$$

$$80$$
