The school of thoughts on Education

According to the authors there are many schools of thought on Education. ^{These all} ~~They~~ believe in the liberty of children. One school of thought has ~~the~~ view that Education does not have any positive impact. It only provides a suitable Environment for development. However, author does not agree on this belief. As per author, communities play a role and hand in with educational institutions. Moreover, it is the ability of a man to deal with external impulses by aligning his intelligence with knowledge. Therefore, Education can build a character both morally and mentally.
