بارہویں صدی کے مسلمان ماہر البہاوت اور فلسفی، الغزالی کی فکر سے زیادہ غلط فہمی کا شکار ہے۔ ایک مفکر کے طور پر انہوں نے دلیل دی ہے کہ قرآن جتنی تشریحات کے لئے کھلا ہے "سمندر میں پانی کے قطرے ہیں"۔ بقول ان کے "کیا تم نہیں جانتے کہ قرآن ایک سمندر کی مانند ہے"؟ اور آپ اپنے معافی کے لامتناہی سمندر میں سفر کرنے کا حق رکھتے ہیں۔ اور اس سمندر کی گہرائیوں میں غوطہ خور ہو کر آپ یاقوت اور موتی حاصل کر کے دولت مند ہو سکتے ہیں۔ وہ عزیز کہتے ہیں کہ "تم ظاہر بہ مطمئن ہو کر ساحل پر کیوں پڑے رہتے ہو؟ یہ کہ مسلمانوں کے لئے رد کرنا، آگے بڑھنا اور اختلاف کرنا جائز ہے۔ الغزالی حدیث اور روایت کا بہترین امتزاج ہیں۔"

The 12th century's Muslim intellectual and philosopher, Al-Ghazali's perspective was most daunted by misunderstanding. He argued as a philosopher (thinker) that despite openness of Quran's open ended explanation it is "like drops of water in the ocean". According to him "don't you know that Quran is symbolic to an ocean?" And you possess rights to progress in vastness of meanings. And you can attain wealth by diving deep in its vastness and after getting the ruby. He further insists that, "why you stay on the shore on the basis of superficial means? As it is right for muslims to reject, progress or proceed forward and to discord. Al-Ghazali is the best combination of innovation and convention."

In the heart of bustling cities, urban green spaces stand as oases of tranquility, providing respite from the hustle and bustle. Parks adorned with vibrant flora, become havens for relaxation and recreation. The greenery offers a sanctuary for diverse wildlife, creating a delicate balance between urban development and environmental preservation. Beyond their aesthetic appeal, city parks play a crucial role in fostering community bonds. Families gather for picnics, friends engage in sports, and individuals find solace amidst nature's embrace. These communal spaces serve as venues for cultural events, open-air concerts, and art installations, enriching the urban experience. The benefits of urban green spaces extend beyond leisure. They contribute to improved air quality, mitigate the urban heat island effect, and promote overall well-being. Access to nature within city limits becomes a vital aspect of mental health, offering a refuge for introspection and rejuvenation. However, the challenge lies in balancing the increasing urbanization with the preservation of green spaces. Sustainable urban planning becomes imperative to ensure the coexistence of concrete

jungles and natural havens. Efforts to create and maintain parks, tree-lined avenues, and green rooftops become integral components of shaping cities that prioritize both human and environmental health. As cities evolve, the preservation and enhancement of urban green spaces become a shared responsibility. The vision is to cultivate urban landscapes that seamlessly integrate nature to the tapestry of city life, fostering a sustainable and harmonious cohabitation between human progress and the environment.
