## The school of thoughts on Education

According to the author, there are many schools of thought on Education. <sup>They all</sup> believe in the liberty of children. One school of thought has ~~the~~ view that ~~Education does not have any positive impact. It only provides a suitable environment for development.~~ However, author does not agree on this belief. As per author, communities play a role and hand in with educational institutions. Moreover, it is the ability of a man to deal with external impulses by aligning his intelligence with knowledge. Therefore, Education can build a character both morally and mentally.
