

PRECIS - 2024 CSS PAPER

~~TITLE~~

Urban Development and Environmental Protection

~~Precis~~

Urban green places provide a peaceful refuge within busy cities. Parks are the places for rest and leisure. The greenery ~~protect~~ supports wildlife and helps ~~to~~ balance environmental conservation and development. The advantages of urban green spaces are much more than leisure. ~~The green spaces are crucial for mental well-being. But the challenge is to balance development and environmental conservation.~~ Sustainable planning is essential to balance development with nature. With urban development, ~~the~~ preservation of nature becomes a shared responsibility. The vision is to harmonize urban development with environmental preservation.
