### Question #01:

Most of us fail in our efforts for self-improvement because they could not set their focus on a specific task. They give themselves so many tasks, which becomes difficult to complete. They fail, because they require perfection in life rather than improvement, and in doing this they do not remain stick on a specific goal due to poor time management.

### Question #02:

During the process of self-improvement, it is a basic mistake to announce your resolution to everybody. This is so, because whenever you declare your decision, may be you would face some kind of criticism. Therefore, declaration of goals to someone causes a sort of distraction and proves obstacles in the way of achieving success.

### Question #03:
