

Topic: Agricultural decline and how to counter it

Introduction:-

⇒ Attention Grabber:

As proverbial royal messenger was sent by King to convey important message. Although he had a horse but neglected nail of horse. and ~~gr~~ Resultantly horse fell down and died.

⇒ Connecting Sentence:

Similarly Pakistan ~~have~~ ^{have} not pay due attention to this sector and ~~have~~ become importer of it.

⇒ Reflection of outline:

Since inception of this country, it has been agricultural abundant. However, due to several factors have declined. Lack of modern technology and research and development culture are chief among others. further, traditional method of cultivation and quality compromised fertilizers are attributed to decline of agriculture. Inadequate supply of water and govt. Policies effected it most. Resultantly, Pakistan is facing food shortage and inflation as consequences of it.

further decline in agriculture impacted in this way that country is to import commodities and increase in poverty. These above mentioned factors can be eliminated by using research center and use of technology. Moreover, adequate water supply and adequate allocation of budget can uplift this sector. Along these policies, quality fertilizer is necessary to produce yield.

Thesis Statement:-

Decline of agriculture is the result of several factors. These factors impacted country ~~is~~ negatively. To improve this sector effective and constant policies are required to implement.

Crunch Paragraph:

Food abundant towards food security.

In the inception of this country, this sector was considered as largest sector in the economy. Being self sufficient in the sector, ^{country} was a major exporter of food commodities. Pakistan ranked at 99th among 121 countries in the Performance of Agriculture Sector. (Global Hunger Index 2023) Pakistan is placed in serious risk list which means country is ~~unable~~ unable to produce required quantity of food. All these statistics depicts the situation and reflects negligency made by country. Now the country is facing difficulties due to these negligencies in the form of food security and food shortage.

Topic: Is Commercialization biggest ill of media?

Introduction

Attention Grabber:

"Commercialization refers to the idea of maximizing benefits without having any regard for the values."
(Joshua Goldstein, International relation 2018)

This means that commercialization exploits media for their own benefits.

Although media was discovered to spread truth and highlight issue of everyone, but media diverted itself from its core objective. It can be seen in world that media considered as biggest ill. Exploiters use it for their own narrative.

Thesis Statement:-

The Process of Commercialization dented the Positive role of media. However, commercialization is as essential for the Survival of media. Therefore, it doesn't mean that for the sake of survival, media divert itself from its objective.

Crux of Outline.

The process of commercialization dictates the media and persons ^{which are} associated with it, that is why it is biggest ill. Business and control of biggest owners and influencers promotes things in their ways.

To make narrative or to advertise media is being used and exploited by many controllers. However, on the other side it is considered as survival of media is based on process of commercialization. Commercialization is necessary for media to promote narrative of everyone.

Moreover, they think that there is no issue buttressing national cause even when it is commercially induced. Therefore, these statements don't verify the ^{positive} role of media in society.

Crunch Paragraph.

Topic: Commercialized Media

It has been desire of every influencer to control media. Because by media they can promote themselves and their narrative

throughout the world. By providing awards or other means of wealth spread their products. Although these ceremonies are good exercises for media, but

it destroyed the media's role in society. The validity of media is being questioned by people due to these biases and

appreciation. It has demolish barrier between good and bad.

If we see at international level in different region different narratives are being circulated by media.

~~first~~ for example west control media for their purpose. Commercialization was the core principle of exploitation.
