## Crunch Paragraph

How commercialization is a biggest ill of media

The sole purpose of commercial media is to make money off their programs and advertising (commercials). It is a biggest ill of media because, it may leads to reduction of work force. It is leading to increases in price of goods and services. along with that it also leads to exploitation of the consumer. Further more it is leading to Uneven distribution of wealth. Due to commercialization there can be a price war. It can be caused of Unequal competition and create a monopolistic market. It declines in moral values and promotes Unnecessary consumption. It is a deferred revenue expenditure, as the results are not immediate. Last but not least a major drawback of advertising is misrepresentation of facts regarding products and services.
