Qs: The ascending potency of hybrid warfare being foisted on the hos state of Pakistan is adding to the security woes of the country? Elaborate with examples?

Ans:

Hybrid warfare are ascending in order to weaken the country economic, social and political system. It is basically military and non-military security threat which disturb the economic growth. We face political instability since Pakistan came into being. Separation of east Pakistan is also due to foreign interference.

Hybrid warfare are also called 5th generation warfare. It include the separation of wrong information, propoganda. It create local unrest

Economic warfare are also on of their tact they use foreign influence on other countries by giving aids. When US invade Afghanistan. It uses Pakistan bases for attack. The incidence of

Abotabael is also significance. When US force inter in Abotabael and kill Osama Bin Laden. and using Pakistan territory without it permission.

Geographic location of Pakistan is also one of major security threat. Pakistan share border with Afghanistan which faces four decade of instability. Terrorism and gun culture is also promoting in Pakistan. 80,000 peoples are killed in Fata by security forces. Similarly, the incident of APS Peshawar is unforgettable which resulted in NAP. and there is huge influx of refugees. Extremism is also promoting by Afghan culture.

We should also face the burden of history. We get independence from India. But it still use different tactics to degrade Pakistan and declare Pakistan as

terrorist state and extremism.

In spite of the violation of human rights in Kashmir

through the ITP and border.

it creates instability in Pakistan.

He also wanted to regional hegemony

OPECs also have security

threats from India

Media promotes freedom of

speech. People can easily trap in wrong propaganda.

Media plays an important

role in opinion building

of the country. Everybody

spreads news without

some authenticity. In order

to promote their channel they

adopt different agendas. It

creates the condition of

civil war. Every group of

people is against the other

group.

Balochistan: Balochistan liberal
army wanted to separation
from Pakistan. Pakistan
took a some aggressive step
like Military operation but
their avoid still existence
of non state actors.
They create political
unrest. It should be
addressed by table talk.
Pakistan have fragile institution
which have huge
corruption. Many federal
do not pay their
taxes. We gain in
IMF loan. When
we depend on
foreign. We do not
become an independent
with independent.

foreign policy - Foreign - interference
is also threat to

sovereignty of the country.

We should make our
political institution strong,

economically independent so

We can compete #

with the modern threat

of diplomacy and other
issues.
