In his speech at the passing out parade of Pakistan Military Academy (PMA), Kakul chief of Army Staff General Qamar Javed Bajwa said, "Our enemies know that they can't beat us fair and square and have thus subjected us to a cruel, evil and protracted hybrid warfare." Hybrid warfare is a military stage that employs a blend of kinetic operation and subversive efforts to destabilize an adversary. Various conventional, non-conventional, regular and irregular tactics are used to manipulate the ideology of the citizens of a country. Objective of hybrid warfare is not to secure an adversary's immediate defeat. It is actually to erode adversary's morale, disrupt the economy, isolate it diplomatically, and soften it up before a full

scale invasion. Manipulation of ideologies is an effective tool to achieve geostrategic goals. It weakens the state and make people insecure by exploiting the conflicts. By applying specific policies, this challenge can be addressed.
