

Topic:- Neglect of enhancing intellectual ability in our educational system

Attention Grabber / Hook

The Brain is deeper than the sea - / For - hold them - Blue to Blue - / The one the other will absorb - / As Sponges - Buckets - do - (Emily Dickinson, The brain is wider than the sky). The boundless capacity of the mind, in Emily Dickinson's ^{words,} ~~opinion,~~ extends well beyond the ocean's depth, with a ~~tonne of~~ ^{unexplored} ~~unexpected~~ realm. The brain could absorb every inch of enormous ocean if 'the blue of mind' were placed next to 'the blue to ocean', just as a 'sponge' may absorb a 'bucket' of water. (87 words)

Connecting Sentence

Yet we agree to merely take a fistful of water by neglecting the enhancement of intellectual ability in our education system. (21 words)

Reflection of outline

Equal access to high quality education for both genders, as well as implementation of the educational policies, is a very uncommon scenario in Pakistan. Moreover, lack of motivation, low self-esteem, no interest in creative and conceptual studies, and overuse of electronic devices are further contributing factors. As a result, Pakistan may see a fall in its ability to solve problems, think critically, be creative, and accomplish academically, as well as spike in societal issues, a drop in economic ~~problems~~ production, low standard research and higher mental health risks. Therefore, to solve intellectual constraints in education system, it is essential to ~~invest~~ ^{invest} in

innovative and creativity culture, modern education techniques, and responsible use of electronic gadgets. (114 words)

Thesis statement In Pakistan, there are numerous impediments to improve intellectual abilities in our educational system. These challenges have exerted a number of negative effects on both individual and societal level. However, the problems can be addressed by developing appropriate policies and supporting modern and creative culture. (64 words)
