The neglect of enhancing intellectual ability in our education system

Attention Grabber

Although the proverbial eagle had all the strengths inside but he grew up among the hens and ended up like them. The eagle stood ignorant of his strengths throughout his life and every time he would see an eagle flying, the wish to fly on the skies also arises in his heart. In the same way the inability of the education system of Pakistan to enhance intellectual ability has left people oblivious of their true potential.

Connecting Sentence

The indifference that our education system has shown towards fostering intellectual ability has abated the prospects of development for the country.

Reflection of Outline

The neglect of education system to enhance intellectual ability mitigates the skills to analyse the given realities critically that may seriously help for the growth of productive human capital. The class based education system and agenda based

curriculum causes big damage to intellectual ability^②. As the teachers are also a product of education system of Pakistan, most of them also lack intellectual ability, what they can only do is the promotion of cramming based system.^③ Along with all this enhancing intellectual ability does not seem to be in the priorities of the policy makers as the educational sector lacks proper budgetary allocation that results into poor infrastructure in the educational institutions.^④ The burgeoning un-productive youth without any specialised education brings severe unemployment which is one of the many issues that absence of intellectual ability causes.^⑤ The full stop on development and innovation is evident of flaws inherent in the education system of Pakistan to link the economy with the education.^⑥ These flaws can be cured through merit based appointment of educational staff and encouraging research culture. Moreover, linking curriculum with logical realities and

and inter-cultural exploration opportunities may broaden the horizon of the students as well as of the teachers.

Thesis Statement The neglect of enhancing intellectual ability in the education system of Pakistan is the root cause of many social ills because this phenomenon imposes many barriers on the thinking of people. However, the trend of 'neglect' can be shifted to 'promotion' through proper policy making.
