Topic: Neglect of enhancing intellectual ability in our education system.

Introduction:-

"Give a man a fish and you feed him for a day, teach a man to fish and you feed him for a lifetime." Maimonides.

This means that education, lacking in intellectual ability is like giving man a fish which help him to feed for a day. However, instilling the intellectual ability is like teaching man how to fish which will help him for a lifetime. This ability help him in school, work and everyday life by doing smart work.

Currently, the main focus of our education system is on memorization of knowledge which shows the neglect of enhancing intellectual ability in our system.

The prominent witnessing neglect features like lack of reasoning, critical thinking, facilities and accountability can be seen in education system. Moreover, insufficient financing, teacher trainings and outdated curriculum are also contributing factors of negligence. Moreover, it has some reasons like less budget, equipped teachers and less teaching skills. In teachers, which only assure only memorisation of knowledge. Also, the presence of incompetent teachers due to unfair induction and aged teachers due to age relaxation in retirement

policy hinders them to teach new skills in educational institutions. So, it is necessary to take some steps to inculcate new skills in students. This can be done by introducing IT integrated teaching and selecting new and competent teachers by fair means. Another step may be the enhance in budget so that it can be utilised for teachers trainings and IT Labs.

In a nutshell, Neglect of intellectual ability is considered to be crucial for us in future. But its negative effects can be minimised by introducing some advancements in education system.
