

PAK-AFFAIRS (Test 1)

Question 1:-

The ascending potency of hybrid warfare being foisted on the state of Pakistan is adding to the security woes of the country. Elaborate with examples.

ANSWER:-

Pakistan already facing many security issues, internally and externally, has pushed the country into stagnation.

Fostering the potency of hybrid warfare can further damage the country's situation.

HYBRID WARFARE:-

This model of warfare was first introduced by US - military official, which comprises all aspects of ways to win or succeed against your enemy. This model consists of political efforts along with military strategies to destabilize a country

which possess a security threat to national security of a nation.

HYBRID WARFARE and PAKISTAN :-

In the modern world Hybrid warfare has imperilling effects. Pakistan is one of the countries affected from this system of war.

Terrorist State:-

Pakistan is considered as a terrorist state by many countries. One of them is India, who largely benefits from the views regarding Pakistan. ~~After~~ The day Pakistan came into being, is the day India has continuously bothered us due to their efforts of destabilizing Pakistan. Every time a terrorist attack happens inside India's territory, they try to blame us as they see us as a country full of terrorist. This image destroys our relations with other countries such

as America and Europe.

VIOLATION OF Indus Treaty:-

Another perverting act that India commits is not abiding by the rules of Indus water Treaty. Every time they release water into Pakistan, the floods are likely to rise across the country. These floods damage our agriculture, infrastructure, and exploits our economy. This can also be termed as political strategy of war against a country.

TRADE Being Used as a weapon:-

Countries like USA, Russia, China and UK with powerful economy uses trade as a weapon in a war.

The same is happening with Pakistan.

Countries like USA accomplishing their goals to weaken China mostly forces us to cut off relations with China. Pakistan not agreeing to their instruction falls into sanctions, such as, No military aid and loan. Another scenario is 'increasing tariffs on exports and imports when Pakistan denied to give air bases to America in 2021.

Non State Actors and Cyber attacks:-

Non state actors play a vital role in contributing to security issues.

In Pakistan, Balochistan is facing insurgencies since its independence.

India's raw agents continuously damaging Pakistan's sovereignty is a major factor of Baloch insurgencies.

Such as TTP, IS-K and many other militants which pose a great

Security challenge. Cyber attacks is also becoming a modern way to target a country's privacy. In the past India is using it quite evidently in the areas of intelligence organization.

Solutions:-

Awareness:-

Keep the country upto date of the strategies that are being used to damage the security & peace of Pakistan.

Diplomacy:-

High quality diplomacy to ensure no security lines are breached through secret methods.

Technology:-

Technology should be upto date to counter the acts of enemy.

That threatens our security
protocols.
