e, Youth is not specifically responsible for societal unrest

The youth ^{are} indeed an asset to any nation. They are the leaders of ~~tomorrow~~ tomorrow and therefore determine the future of a nation. Nelson Mandela rightly said, "The youth of today are the leaders of tomorrow."

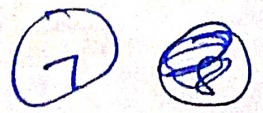

However, as Vince Lombardi said, "Leaders are not born, they are made." The youth can be made effective leaders if they are provided with the right skills. Pakistan also has a huge youth bulge. However, Pakistan's youth bulge can yield both positive and negative results. Due to its huge potential, youth bulge in Pakistan is an asset. By utilizing its true potential this youth bulge can make Pakistan a prosperous country. Youth of Pakistan is an asset in a sense that it can transform Pakistan's economy by ~~innovation~~ innovation and entrepreneurial activities, maintaining ~~social~~ social order,

active participation in politics, and conducting quality research. In contrast, some individuals consider this youth bulge a liability. They consider them a burden on economy and responsible for social unrest. Furthermore, they also question their political participation and innovation. But they are emphasizing on the one side of a coin.

The huge youth bulge in Pakistan has both positive and negative impacts. On one hand, the young students of University of Engineering and Technology Peshawar have made a cooling jacket, specifically for traffic wardens, to lessen the effects of heat. On the other hand, huge number of university students are found using drugs. This shows the youth of bulge a liability.

One of the positive aspects of youth being assets is that they can transform Pakistan's economy. The most peculiar quality of young individuals are that they are energetic and enthusiastic. With the right skills, they can utilize these qualities to perform ~~Product~~ effectively. Hence, the youth of Pakistan can contribute a lot to economic growth.

Moreover, young people can enhance education and research potential. They can enhance their own learning experiences ~~and can contribute~~ and can ultimately contribute to the education sector of Pakistan. For instance, many people acquired higher education through HEC Scholarships and when they return to Pakistan, they conduct quality researches and improve teaching methodology. Therefore, young people contribute immensely to education and research.

Along with this, young individuals also play a pivotal role in shaping the political landscape. They guide ~~the~~ decision-making of political leaders through popular opinion. Furthermore, ~~the~~ when they are equipped with the right skills and education, they can become good political leaders. So, young individuals shape politics of the country in a positive manner.

In addition to this, they also bring innovations and entrepreneurship. Youth has this tendency of doing something incredible. Through this they put a lot of efforts which eventually ~~yo~~ yield yield positive results. For example, Foodpanda, Bykea, RoboArt and start-ups like Khok Khola are the results of these energetic efforts. Therefore, the young generations of Pakistan bring innovations and start-ups.

Similarly, young individuals of Pakistan maintain social stability. The young segment of every nation is responsible for maintaining social order. The youth of Pakistan are no exception in this regard.

They maintain social stability by advocating and creating awareness against social evils such as corruption, extremism, gender issues and environmental concerns. Hence, young individuals play a pivotal role in maintaining social order.
