

Test 03

Agricultural decline in Pakistan.  
and how to counter it

Date:

"INTRODUCTION" (Shuja Awan)

Attention  
grabber

The discovery of agriculture was the first big step towards a civilized life. (Arthur Keith). There was an old but very famous farmer who cultivated best quality of corn in the state. Every year he won gold medal for his best quality of corn. A reporter asked him how could you become able to grow such crops. He answered that, he provides best quality of seeds to his neighbours, as if his neighbour is unable to grow best quality, cross pollination would destroy his crops too.

Connecting  
sentences

This is how we can know the importance of coalition among farmers and government.

Reflection  
of outline

Gradual downswing in agriculture sector of Pakistan is causing serious threat. Insufficient water and lack of modern techniques resulting in more expense and less income. In addition to this, heavy taxes and high inflation is also affecting sector. This results in low production of crops leaving behind a monster of unemployment. However, several steps could make this situation better. Construction of dams and providing free modern techniques to farmers may change their
