Outline:

- i- Introduction to hybrid warfare
- ii- Targets of hybrid warfare in Pakistan
- iii- Hybrid warfare and Pakistan's response
- iv- How to counter with hybrid war?
- v- Conclusion

Introduction to hybrid warfare:-

Hybrid warfare is also called 5th generation or modern warfare.

It is a non-conventional war that hit social society factors by using non-traditional tools.

We can see that Pakistan and India have unconventional war exist between them. India do propaganda to influence Pakistan by saying a terrorist state. Pakistan using diplomacy to influence India at international forum.

Targets of hybrid war in Pakistan:
Currently, Pakistan is facing the hybrid war that target following sectors:

1- Economic Attack:

Pakistan is facing economic crisis due to which international forums like IMF is using as a tool to influence economically.

Budget formation is the main influenced sector because subsidies who would apply or not is decided by IMF.

2- Security Attacks:

Due to multiple enemies large portion of budget is spend on military. Military is being target-ed by India, Israel and USA. Pakistan military has been critisized over Afghan war that Pakistan ISI helped them to against America. A warfare is occur on Pakistan due to Afghan war.

3- Political Attacks:

Regime change operation occur in Pakistan in 2022 was the external influence of America on Pakistan.

4- Religious Attacks:

Sectarianism is the issue Pakistan is facing currently.
