Q no 2:

outline

"We are last generation to touch a book"

2/10

1. Introduction.

2. Thesis statement

3. Curlew paragraph.

3. Generational Transformation of Books  
into E-Books

a) e-books were introduced to outreach readers. <sup>You are to give the reason as to why we no longer prefer hard copies. Not why paper needs shift was made.</sup>

b) Books are now published and sold in both ~~forms~~ (hard + soft)

c) Digitization of information <sup>vague and unclear argument</sup> and e-commerce

d) Development of devices + applications compatible with e-book.

e) Global reach to the audience.

The wording of the topic indicates a sense of loss. You are to write negative effect of that loss not positive effect of e-books.

4. How E-books have transformed Readership.
- a) E-books make search, access, purchase, reading and storing books easy.
  - b) E-books are affordable as compare to hard copies.
  - c) E-books are easy to store and portable.
  - d) E-books facilitate users with better comprehension through e-reading applications.
  - e) Number of e-book readers are increasing.

5. Why we are last generation to touch books. This should be your 1st main heading.
- a) Rapidly shrinking hard bound book's market share.   
*Why only hard bound books? What about soft bound? If that is not desired then what?*
  - b) readability of e-books across different devices. Same as 3(d)
  - c) affordability of e-books. Same as 4(b)
  - d) increasing issues of eye sight and difficulty to read hard books.
  - e) People having taste and memories of holding a book belongs to this generation.   
*Not a reason of decline in hard books.*

### 6. Conclusion

Way forward?  
Incomplete analysis.  
Wrong interpretation - Do research before attempting a topic.

Q No: 2. outline
