Introduction Paragraph Structure (blank form)

<p>Attention Grabber (Hook)</p>	<p>Books are the perfect entertainment, no commercials, no batteries, hours of enjoyment for each dollar spent. (Stephen King)</p> <p>Here, Stephen King is referring to the ^{Why only hard cover?} only hard cover books. There are memories and sentiments attached with books such as the ^{3rd person} writer's dedication of book to someone, (you) ^{you} want to gift.</p>	<p>Why only hard cover? What is wrong with paperbacks?</p>
<p>Connecting Sentence</p>	<p>(Connect your hook with the reflection of the outline) all these memories attached to the ^{hard cover} books</p>	<p>This does not make sense.</p>
<p>Reflection of the outline</p>	<p>want stand generational transformation of book publication, as we are the last generation to touch a book.</p> <p>The e-books readers and e-books were initially introduced to cater the needs of books readers across the world, it initials with book publication both hard and soft format. Soon this trend is transformed into preferred mode of production ^{consumption}. Because e-books are more affordable and accessible via different e-book readers, smart phones, tablets, personal computers and i-Pads. Moreover, the content of e-books is easy to comprehend as e-book reading applications facilitate of words meaning, highlighting important text and content transfer to other documents (copy-paste). E-books are</p>	<p>What how does that highlight the importance of book also how does that convey that we are the last generation to touch the books</p> <p>The tone does not match the demand of the topic. This reads like because the mode of publication shifted so we are the Las generation because so many platforms are available</p>

easy to store and carry around.
all these factors results in rapid
shrinkage hard cover books market
share and increase in e-book
readers. The production and possession
of hard book is toward steep
decline due to high cost of produ-
ction, storage and maintenance.
In this scenario, we are probably
the last generation to touch a
book.

This does not highlight why we are the last generation, what changed besides technological ease. What are the negative repercussions, how can we encourage the love and access to physical books

Concluding
Sentence/s

(Thesis
Statement)

The technological support and ease
of adaptation towards e-books is
pointing towards the emerging trend
of e-book readership, thus we are
probably the last generation to
experience the possession of hard
cover books.

Does not cover the whole topic

"Has Employment increased or decreased in Cyber Age"

027

HAJRA MASOOD

Introduction Paragraph Structure (blank form)

AI is one aspect of the cyber age. Instead of being more general you are being very specific here

Attention Grabber (Hook)	Artificial intelligence is not a substitute for human intelligence; it is a tool to amplify human creativity and integrity (FEI FEI LI) It indicates that current era of cyber age that brings automation based industrial revolution is not a threat to human work force.
Connecting Sentence	(Connect your hook with the reflection of the outline) Impact these machines are the tools to improve productivity
Reflection of the outline	and creativity of human beings. These ^{man} made machines are not capable to replace human work force and grab their share in employment/job market. We are living in the cyber age where artificial intelligence has enabled machines to work and think like human beings. Still these machines lack emotions, intelligence and decision making power in complex situations. The AI technology has brought new demands in every field including commerce, manufacturing and human resource management. The automation has brought a whole new demand of technology oriented jobs such as cyber security, data analytics, user

brought

centric ethical legislation, and predictive maintenance. All these technologies are digitalizing the repetitive and exhaustive tasks and helping human beings in intelligent tasks. The employment opportunities created by artificial intelligence are increasing day by day.
 on the other hand, people doing low skill based repetitive tasks and not adopting new technologies are at higher risk of job replacement.
 The crux of all this discussion is that in cyber age, AI won't replace you but AI skilled worker will.

Concluding Sentence/s
(Thesis Statement)

The artificial intelligence based industrial revolution has created more job ^{contrary} ~~to~~ ~~the~~ potential threat of job replacement in the cyber age.

Mention both stances. Then elaborate your stance
