There is no positive use of nuclear weapons.

Sentence structure

6- conclusion

Essay

No connection to the topic. Very vague situation

The continuous war b/w the nuclear states is alarm to peace. Because both the sides have nuclear weapons. If they use it, its very serious threat to world peace. There are many causes of nuclear war, like war b/w the nuclear states, Arm. race among the nuclear powers, so its a serious threat to world peace. However, the positive use and sale can reduce the threat of nuclear weapons. Nuclear weapons are threat, because the UN resolve disputes among the nuclear state, are triggers of nuclear war at any time. It not only destroy enemy its also threat to peace of nuclear neighbours. It also threat to green caps and environment, it threat to the peace of whole world. There many step to reduce this risk of nuclear weapon UN must play it role it will UN resolve disputes among the nuclear power states, its will

sentence structure

expression / sentence structure

language needs a lot of work.

ensure to use nuclear weapons for positive purposes i.e energy generation. through this step can reduce this risk.

Nuclear risk ^{anywhere} is a challenge to peace ^{everywhere}. ^{because} Nuclear bombs is a weapon which not hit a particular place. When its blast occurs its harmful gases spread in the environment which affects the whole environment the civil population, the green plants and crops, the agricultural land and also affects the neighbour countries and their environment.

Azair-
Very limited content
Lack of depth in discussion

So it is a huge challenge and risk to peace everywhere. However with positive steps this risk may reduce. That to use this weapon for positive purposes i.e energy generation through we generate electricity which is useful for humanity also for animal. So through this way challenge can convert to a useful work.

Repetition
This is the same as your outline

Nuclear weapons increasing due to the weapon race among the super powers. Because every one nuclear countries and non nuclear they see their enemy that how they are making the weapons are not. So the other side also started to make weapons. For example Russia, USA which are rivals from decades they started to make nuclear weapon. The use of nuclear weapon which were used by USA and Japan in World War II. So the weapon race is moving fast through this way.

For the balance of power also the rivals countries are making weapons more and more against one another to balance power. For example when India ^{Indira} ~~was~~ made nuclear weapon. Pakistan ^{to the} also starts struggle for making nuclear weapon and at on 28 may 1998 Pakistan made it. Now when Iran try to make nuclear weapon ~~Pakistan~~ Saudi Arabia also

also desire to make nuclear weapon because his rival is making this. So every rival country want to balance his power with enemy country.

There are many countries who use this weapon for energy generation because it's a cheaper source of energy for this purpose they want to make the nuclear weapon. But it's also threat to peace because the harmful gases are released through it.

Many countries feel threat from their rivals and they want establish peace and remain safe from the aggression of their rivals. So their rivals rise nuclear power and threaten them. So they struggle for nuclear weapon, i.e. Pakistan who feel threat from Indian aggression. So Pakistan make it. According

Former PM Zulfikar Ali Bhutto
"We will eat grass but we
will not use the nuclear bomb" Because
He feel threat from indian side.

Nuclear weapon are threat to
peace. Because there are many
un resolve disputes among the
nuclear countries. For examp the
dispute b/w India Pakistan, the
disput b/w China-USA over Taiwan,
the disput b/w NATO-Russia, ~~dispute~~
~~b/w USA-North Korea~~ are
trigger point of nuclear war
fas which are serious threat
to peace.

The continuous war b/w
super power i.e USA, NATO-Russia
war over Ukraine dispute, The
war b/w USA-China over Taiwan
issue, and these war can
convert in nuclear war which
is a serious threat to peace
of the whole world.

This is a
sentence not
a paragraph

Nuclear not only destroy the

War countries. But it's also destroy the neighbour countries and it's a serious threat to neighbour country. So from this point of view it is a dangerous weapon because those who are not involve in war also effected in this war so it a confirm threat for peace. *No structure example?*

Nuclear Weapons destroy the green plants and crops and the agriculture land which will not able for cultivation in decades. So this serious threat due which also a food shortage can occur in the world which also a threat to peace. *That's speculation No research based proof*

sp Nuclear weapon is a serious threat to the peace of whole world. We need positive steps to reduce this threat. The international organization i.e UN, UNSC, IAEA to play their role in real meaning *specify the role*

to reduce the risk of nuclear risk and ensure its positive use. though this can the reduce of risk of nuclear risk.

Nuclear powers have unresolved disputes like Pakistan-India Kashmir's issue, NATO vs Russia war, China-USA over Taiwan these are unresolved disputes which a serious threat of nuclear war to resolve these disputes the nuclear risk may reduced.

The IAEA have the ability to ensure the positive use of nuclear weapons. Used it for only energy generation purposes which is a beneficial use and a constructive use. So through this countries who are already made nuclear weapon can utilized it for its positive purpose. So there expansion on nuclear weapon will no be wast and its will be beneficial.

No
No
No

or
or
or

Further making of nuclear weapon must be stop and strictly rules will be made for it. And all the countries will implement on these rules same so it can reduce the threat and risk of nuclear weapons.

From the above explanation and detailed, if conclude it we can say that nuclear threat is a serious threat to peace. There are many cause of this threat and nuclear weapon making in which the Arms race b/w the Super powers, The Arms race b/w the conventional rivals countries and nuclear weapons countries who are rival of one another, the rivals also want to balance the power. So they are making more and more weapon and nuclear weapons which is a serious threat to peace. So common threat are the disputes b/w the nuclear

11

Powers which are not resolved
it can cause the nuclear war
the nuclear destroy every thing
even the neighbours, the green
plants, the agricultural land.
So through positive steps we
can reduce this threat, the UN
IAEA, must play their role, to
solve the disputes among the
nuclear states, and to ensure the
positive use of nuclear weapon like
energy use so it can reduce
the threat of nuclear weapon
and the risk of nuclear weapon
to peace.
