

Name: AZIZ KHAN

Topic:

Neglect of enhancing intellectual ability in our education system

Introduction

Thesis Statement.

Attention Grabber (Hook)	<p>"A wound gets worse when it's it's treated with neglect" (Stevie Nicks). These words of Stevie Nicks shows that neglect is not the same thing ^{vague. Use academic expression.} as making a simple, harmless mistake but it's a life threatening error or series of errors.</p>
	<p>Not relevant to the topic. It only suggests that neglect is detrimental. Also, your connecting sentence does not connect the hook with the topic.</p>
Connecting Sentence	<p>Same is the case with Pakistan's education system, where it it: neglected <u>enhancing the intellectual ability of students.</u> ^{No consequences mentioned as in the quote.}</p>
Reflection of Outline	<p>It is ^{redundant expression} <u>worth mentioning</u> to talk about Pakistan's education ^{system} <u>It has various levels as well as various types, which provides theoretical and practical education.</u> But there are some factors which neglect the intellectual ability of students. <u>like of curriculum activities.</u> ^{sentence structure}</p>

Focus is always on curriculum ^{at} activities ~~but~~ ^{while} co-curriculum ~~or~~ activities are mostly ignored. Similarly, lack of professional teachers and if there are th teachers, ^{sentence structure} ~~so~~ there is no provision of proper ^{wrong connectors} modern education training for them. Moreover, there is lack of modern technology through which students compete in the market. Then, there is the pressure from higher authorities for finishing the ^{quantitative} course going towards ^{approach to} quantity education instead of ^{active} quality ^{approach} education. Furthermore, there is lack of facilities for both teachers and students and ~~lack of~~ ^{parents' interest}. Because of these factors, there is ^a negative ~~impact~~ effect on intellectual ability of students. ^{Don't use unnecessarily} like there is inadequate technological advancement and innovation, ^{sentence structure} ~~mainly~~ reliance on outside knowledge. There are constraints on development of individuality and personality. They are unable to ^{reason logically} do logical reasoning and are incomprehensible in ^{understanding} solving complex ideas. So, there is a need to take several steps to enhance the intellectual ability of students in ^{Pakistan's} education systems,

Not part of education system.

like providing professional teachers throughout all levels. Engaging students in physical activities. Teaching of updating curriculum activities and new skills as well as these should be classes for engaging students in brain stimulating activities.

Don't define terms in Introduction & in

In a nutshell, intellectual ability is mental ability to think abstractly, and comprehend complex ideas but the concluding sentence students learn little about it in our education system. It is because of lack of financing, poor facilities and obsolete curriculum. However, thesis statement engaging students in physical activities as well as teaching updated curriculum should overcome this problem.

Do not list points in T.S. Keep it generalized.
