Yes, the invention of Kalashnikov that he invented in 1947 attributed only to him as he is the person who designed it single handedly and produced it after several failed design attempts.

② What really made the weapon a revolutionary rifle?

Kalashnikov has several features that makes it a revolutionary rifle like, inexpensive, easy to carry and hold, ability to combat both in extreme hot and cold, short and light. Keeping in mind the above mentioned qualities it spreaded around the world in no time and became a revolutionary weapon.

③ The best inventions come during the time of crisis. Explain the statement.

"Necessity is the mother of invention" a famous quote that we are listening since old days. It is a fact that when there is a crisis

prevailed, man tries to overcome this and think beyond its limits and invent something that mitigate the situation. Similarly, in this case Mikhail during the world war II after getting injury worked passionately on making a weapon to counter the German strategy that invented a world famous rifle in 1947.

④ What kills? Guns or those who carry them?

According to the above mentioned scenario, Mikhail who invented the gun for defensive purpose but instead the persons used it for offensive one. Consequently, those persons who carry the gun are responsible for killing not gun itself. It is just a weapon for protection whoever will use it either in positive or negative way it will respond accordingly.

⑤ Do the last words of Mikhail console his conscience?

When reporter asked Mikhail about his invention he replied in an easy way that he gets his sleep well at night and has nothing to worry

about his invention as he made the rifle just for its defensive purpose not for use in illegal ways. He is not the one we condemn but indeed they are the politicians that have failed to develop a sense of humanity, peace and brotherhood among nations and ultimately led to rise of terrorism and as a result killing of a huge population with Kalashnikov is rifle.

Q. No. 7

Translation

The man who is one step forward, goes rapidly.  
nature rewards him instead of an officer or a system.  
It must be our belief that GOD is protectionist of  
our doings/struggles. It must be our belief that his higher  
will reward us. GOD rewards for those doings which are  
denied by persons. Our belief about this must be as  
solid as about our body's presence. Sheikh Saadi (R.A.)  
says, "Always ask according to the greatness of GOD  
instead of your need!". May be, I have not such a  
capability but his greatness can make me a king.  
He has multiple ways and means to reward.
