(6) Conclusion:

The progress of a country totally depends upon their youth. When the youth are not deliberately involved in the development sectors of a country, it develop a gap in their progression. In Pakistan, there are multiple reasons which identifies that how the educated youth are neglected. Their skills are not utilized according to their demands. The

Power of youth is the common wealth for the entire world. The faces of young people are the faces of our past, our present, and our future. No segment in the society can be match with the power, idealism, enthusiasm, and courage of the young people." (Kailash Satyarthi). In Pakistan how the educated youth along with skills are neglected. The parameters which are responsible for such neglecting skills include; no accountability when hiring a competent candidate, domestic affairs which greatly deviated attention, economic upheaval which superseded the proper use of skills, political polarization which lessen the approach towards pragmatic development. Therefore, led to the poor contribution. Moreover, the unemployment rate rises which deteriorated the economic development and instead of uplifting the country at a competitive

level its pace slows down in industrial sectors. The youth then decide to immigrate for better future and job opportunities. As a result, there is a decrease of labor youth generated, which affects the condition rather more or worse.

Shortly, despite having greater number of young youth in Pakistan, their skills (b) instead being used, mostly neglected. Therefore, an unrest situation is developed which not only down the growth of Pakistan (overall) but unable to provide adequate possibilities.

Pakistan is involve greatly in neglecting the proper utilization of their skills at different level. They put the young educated one behind the progress. The neglecting of their skills not only a threat to individuals but also have a great impact on national level. The educated youth are to be utilized for the betterment of a country. But Pakistan being an developing

country has fully deviated its attention on other things. The reasons which are involve is the power tussel. The politicians are fighting for acquiring power for seat. They majorly pay less attention on the national interest. The proper utilization of educated skills is a national interest. Educated youth not only helps in the prosperity and development of a country but work in different projects to compete national and internationally. Therefore, proper attention should be given on their skills which will utilized for the benefit of country as well as at individual level.

There are several parameters which are responsible in not paying attention. When the educated youth are graduated, they come into the market for acquiring a good position. When they circulate their cv's and ask for interview they are being satisfied for such vacant

position. But the wrong thing occur when they fail to hier a competent candidate for the job. Being authorized and competent one, they are replaced by those who have approach towards the (corroupt)^x corrupt authority.

As a result, without checking their skills they are fired. At institutional level, they are marked neglected because of less or no approach at higher authority.

(Despite presence of accountable system)^x

Moreover, the political leaders are involve in the domestic affairs. They have less concern for national interest. They fight for their personal interest which results in the political turmoil, economic and social unrest. They pay no attention at individual level.

They themselves involve in multiple cases which enables them to work for their personal interest. They are so gap in domestic affairs which has created because of their misleading.

approaches. A social unrest generated which is unable to alleviate. Due to their personal interest, they are less focused to utilize the skills of educated youth not for their but also for betterment of Pakistan.

The political chaos and economic turmoil are intertwined. Due to political instability in Pakistan since from so many years, the political leaders are unable to address the economic growth. Therefore, it slows down the pace in economies which ultimately results in improper focused on the youth. Then the country become stand on the verge of default which resulted in poor economic development. In such case, despite focusing to utilize the skills of youth to uplift the economy, they neglect them because of economic pressure.

Due to poor economic conditions, the authority is unable to launch pragmatic approaches. The less

access of authority in developing practical programs is causing a quite shock to young youth. The educated youth who recently graduated are more enthusiastic to work for fellow country. But unfortunately, they are placed them behind which discourages them to work for at high zeal and zest. Therefore, less pragmatic approach deviate them to utilize their skills.

As a result, the authorities pay poor contribution in launching such projects. The authorities then at their own level start corrupting. They pay no initiative in establishing such programs which is another saddened factor young youth. The political polarization for power make them all to focus on their own interest rather than national interest. Since Pakistan independence, there is always seen political climate harsh at every sector. Therefore, they unable to utilize the skills of

The Pakistan which is continuously neglecting the utilization of educated youth skills are always stand at a bank of least progressive country. The neglecting factor deviate the economic growth rather than to boost. The pace of economic progression slows down to less skilled or no skilled work authorities in their respective field. The youth are considered the progressive factors of a nation. When the youth are not properly analyzed they, it is a major drawback to its economy. The economy slows down with the gradual passage of time. Therefore, for a better economic progression youth must not be ignored along with their skills.

It is a drawback to the industrial sector. Industrial sector is considered the second economic approach of Pakistan. Being neglecting of educated youth, the industrial sector will be unable to uplift their field which is ultimately the

loss of economy. The educated young people must be incorporated to analyze their capabilities for the progression of Pakistan.

Due to no seat for uplifting the country and instable environment. The educated youth decide to immigrate for greater opportunities to abroad. At abroad, they fully present their skills which is a major benefit for the economy of that country.

According to ^{the} World Bank report, 2022, about 750,000 young educated including doctor, engineers, Biologists etc are immigrated to another country to avail greater options.

There is a less number of young labor left when they decide to go and settle abroad. As a result, the pace of progression of economy and prosperity slows down. It is a major disadvantage of Pakistan's neglect- any in terms of educated youth. Therefore, the overall economy

Steps down that fail them to grow.

The non-seriousness of Pakistan's in neglecting skills of educated youth results in high ratio of unemployment. It raises the unemployment rate in the country which ultimately resulted in greater number of crimes. The educated youth then have no option to earn by illegal means. Then they decide to fulfil the needs they follow an illegal pathway. Such irregularity creates social unrest and upheaval in the country.

Therefore, to fight with all such problems there is need to invest more in the practical development.

Development in pragmatic programs and hiring greater number of educated one's ultimately results in low rate of unemployment and uplift in economic condition.

Moreover, accountability and meritocracy should be adopted instead of hiring the unskilled

candidates through illegal means. There should be a merit which will be totally depend on merit. As a result, skilled youth would be able to utilized their capabilities.

Despite this, institutional separation should be designed in every sector like industrial, agricultural, IT and sustainable development. Where they can foster and use their skills according to demands.

In a nutshell, despite neglecting the young and educated youth - their skills can be utilized which will helps in the prosperity and progression of Pakistan. There are more than 50%

of young people having age between 22-30 so utilizing their skills will not only uplift the Pakistan situation but also will serve a crucial development in field of every sector. Therefore, greater investment should be ~~adopted~~ invested to their pragmatic approaches.
