Parents being precious gift of God
upbring their children in a best way. They
give their children good education which
is a primarily need. The credit of
success of a person goes to his parents
who taught him well for development
of characteristics of his personality. As,
parents sacrifice their belonging on their
child, so he should also take care
of his parents when they are old, and
also complete all funeral ceremony when
they die. Indeed, Parents are blessing
and no one can take place of them.
