

## Text 3

We are testing people throughout our lives. We are always looking for friends, but we meet enemies step by step. Friends have to be found. Enemies are available. Then the same question is emerging on the screen of mind that who is enemy. Every human has twenty or thousands of people in their lives. You have to live with all of them. We cannot live alone. Family, relatives, neighbours, local people, colleagues, friends and many other people remain a part of our lives. It is a lifelong affair. We ~~do~~ do not understand many people, but still we cannot stay away from them. Sometimes the relationship has to be maintained only under compulsion or expediency.
