Then again a question come in a mind, after all who is the enemy? Every person have twenty or hundred people in their life. We have to live with them. We can't live alone. Family, relatives, neighbours, colleagues, friends and many other people are part of our life. This is the matter of whole life. Many people ~~don't~~ understand, understandable, but we can't leave them. Some times relationships are maintained due to difficulty or expediency.
