

ZAHRA AZIZ (Batch 41)

Date:

We analyze people whole life. We always search friends but find enemies at every spot. We are required to search out friends. Ready-made friends are available. Again that question is arising in mind that who is enemy at last! Twentee's and hundreds of people are there in every person's life and we are to spend life with them all. We can't live alone. Our homies, relatives, neighbour's, citizens, friends and other's also remain the part of our life. It's the matter of whole life. We can't understand most of them (people) but we can't cutt off them. Offentimes we have to maintain relations in compulsion or recognition.
