## English Translation Test - 3

We test people throughout their lives. We keep looking for friends, but we keep finding enemies step by step. Friends have to be found; enemies are available. Then the same question is emerging on the screen of the mind that who the enemy is. Every man has twenty or hundreds of people in their life. All of these have to be lived with. We can not live alone. Family, relatives, neighbors, colleagues, not matter of friends, and many other people are part of our life. It is a lifetime matter. Many people do not understand, but still we can not stay away from them. Sometimes, the relationship has to be maintained only under compulsion or expediency.
