Importance of Parents

Parents - a gift from God - play a key role in the growth of a child. Education is the primary thing for the better flourishing of a child, therefore, educated parents built moralities and responsibilities in a child. The successful person's qualities reflect their parents' training. Accomplished parents bring up their children with humanitarian characteristics, and they spend their money on children. However, children must care for and obey their parents at difficult times in life. They should arrange for a funeral after their death. Thus, there is no replacement for parents.
