Translation

History is <sup>replete</sup> full of such successful people who started their life from most difficult circumstances but <sup>later on</sup> enlisted themselves as successful and well-known personalities of the world. Success, honour and fame is not given you ~~by placing it~~ on plate.

Only wealth is given you on plate. It is also <sup>at that</sup> ~~in that~~ condition if you have ancestor's <sup>cul wealth</sup> property.

<sup>translate word to word</sup> so you can get wealth. You can buy

worldly essentials ~~with~~ by money but not happiness. It takes decades to earn respect

but sometimes a moment is enough to be dishonoured / ~~disrespect~~ <sup>become</sup> and controversial.
