TRANSLATION OF THE PASSAGE

If the world don't attract you, If you have tears in the eyes due to the fear of Allah. If the concept of hell put fear in you, If you worshiped Allah, the way it should, If your goodness attracts you towards itself and your feet are stopped from going to the evil path, then you are victorious. Some people are victorious, some are to be victorious. Victoriousness is the luck. To be victorious is the process of continuous purification and endeavours. It takes time and also bears to suffer in this path.
