

## Translation — Test: 01

If you don't get attracted to worldly life, if your eyes get wet by fearing Allah, if imagining hell makes you fear God, if you worship God the way you should, if goodness attracts you and you remain away from wrong path, then you are a virtuous person. Some people are by birth virtuous and some are made so. It is quite fortunate to be virtuous by birth. Becoming virtuous is a matter of constant perseverance and struggle. It takes time and one has to go through sorrows and pain to get it.
