d) - World must provide help to farmers

e) - Education is essential to everyone.

7) - Conclusion.

"Food is national security. Food is economy. It is employment, energy, history. Food is everything." (Jose Andres)

Hunger is an issue that led to food insecurity, unemployment, decrease country economy, led to death and many others problems. So hunger getting worst day by day is due to world globalisation system, wastage of food, no justice with needy people. To overcome the issue of hunger there is a need of such techniques that gives justice, jobs, improving agricultural sector and provide education to all. Therefore it is one need of everyone to ~~fight~~ fight against the hunger for ensuring that there is food on everyone's table. A world without hunger is still possible, but only if we work together.
