Current Affairs

Q5:

Whether war in Ukraine help
Russia resurgence or Nato survival?

The Society of
Ukraine can be
divided into 2 parts.

Demographic Ukraine Reality:

Pro-western society
which makes up
almost 65-70 percent
of total Ukraine
population.

Background:-

Ukraine has a
Russian background.
25-30% of Ukrainian
people are in favour
of Russia.

This consists of
Eastern and south
eastern parts of
Ukraine.

Ukraine is showing
tilt towards west
in different ways.

Ukraine has increased
trade with European
Union (2020 trade deal)

Ukraine has increased
border relaxation
for countries like
Finland and Poland

Ukraine has applied
for membership of
European Union in 2022

Ukraine has started
buying and purchase
of weapon from
UK, USA and France

Ukraine has also
applied for membership
of NATO in 2022
which is unacceptable
to Russia

NATO and EU expansion will cause affects to influence of Russia in region. Since 1999, 2004 and 2008 and now in 2021, different countries from Baltic region are trying to get membership of NATO. These countries were part of Ex USSR. 2008, Georgia was attacked by Russia as a result of its attempt to be a part of NATO. Later on it was evacuated by Russia on strict terms.

Do not elaborate the background

Same case happened with Ukraine recently.

They tried to expand NATO influence in Russian region.

As a result almost 2 lac armed forces attacked on Ukraine including Army, navy, Air force and Artillery.

Eastern Ukraine's big and important cities were captured by Russian forces. Coastal belt of Black sea, their highways, motorways, airbases and civil nuclear reactors were controlled of Russian Forces.

It caused 600 Billion dollars damage to Ukraine, second largest loss in the

2 centuries.

4 Million people
of Ukraine became
refugees and 5
million GDP's

Russia Resurgence:

After 1991, there
was a decline seen
in USSR and the
world become Unipolar.

But from very start
of 21st century, Rise
in Russia's power is
quite clear.

In 2008, Georgia
was attacked and
captured by Russia
because it was creating
harm to Russian Dignity
and influence in
Region.

It was cleared by

Russia on 2 major terms

Georgia will provide it's air basis to Russia.

Georgia will remain neutral in Russia / NATO war.

In Syria, on request of Bashar Assad's government, Russia vetoed in United Nation Security Resolution in Syria about Military intervention of USA

In 2015-2018, Assad's government regained it's lost writ in Syria.

In 2014, annexation was done in "Crimea" an autonomous state in

Too general

Break into a number of headings

eastern Ukraine. 96 to 97 percent people voted in favour of Russia.

There's a fear in neighbour countries of Russia "who's next?"

European Union is terrified of Russia.

Revival of NATO:

Russia has once again become a threat for world especially to western countries.

NATO was established in 1949 as a result of fear of Russia. It was joined by 54 countries initially and expanded with passage of time.

In 2008 in NATO conference, UN secretary

asked to end peace
holidays because Russia
is threat to peace
in their views

Annexation in Crimea
further made them
realize about Russian
influence.

Ukraine was also
another hunt of
Russia.

Now Ukraine tries
to harm Russia,
in result captured
by Russia.

Ukraine also works
hard in terms of
defense. They are
spending a major
portion of a Budget
in purchase of weapons
Other European countries
are working

to get membership of NATO i.e. Ukraine which is more likely not to be given. Because according to NATO charter article 5 if a single country of NATO is attacked, each country of NATO member will create a war against that attacked country. So in now, it will disturb, might end whole world.

The argument is not logically sound
Add references to

Different sanctions are also imposed on Russia by western countries to show harmony with Ukraine.

This is the time maybe, whole NATO is strengthening it

to fight against
Russia.

Rather than elaborating the background, focus more on the ask part

Q2:
Alarming Level of Militancy in Pakistan
Evaluate the Reason's and give Policy Recommendation.

Since the control of Taliban over Afghanistan, resurgence of attacks is quite bold and clear in Pakistan.

In 2022 only, 450 attacks on either individuals or any institution or crowd has been witnessed which is alarming and disturbing for state as well as common people of Pakistan.

It was seen

most of the time
armed forces were
on target of
these attacks. In
Islamabad, Bannu
Kaschi and many
more like this

These attacks were
specifically made on
either army, police
or paramilitary forces.
Armed forces are
trying their level
best to eradicate
these terrorists from
country. They claimed
that hundreds of
militant have been
killed and many
are captured.

A militant group
which basis and
grounds are from

Afghanistan, has accepted that they are responsible for these attacks. Allegations were on Afghanistan Taliban Government that they are involved in these attacks.

But these allegations are denied by Afghan.

Different meetings were arranged between TTP officials and Pakistan Government officials resulted in no better position of state. Still the attacks are going on in Pakistan despite such efforts.

These militants are hidden in

Balochistan. They came
easily from Afghanistan
and reside in Balochistan
and do attacks

They have put
certain demands in
front of Pak
government, in case
their demands are
fulfilled, militant
attacks would be
stopped otherwise
they will continue
killing innocent people
Here are their
demands.

Release 100 prisoners
of Taliban
implement Shariah
Pakistan.

Remove Fata merge
from KPK

Not fulfilling their demands are causing more attacks in Pakistan.

Pakistan have to strictly make policies and it's implementation against such attacks.

There must be strong check and balance on borders so that criminals can't cross borders.

Operations like we did in Pakistan "Zarb-e-Azad" "Raid-ul-Farooq" we have to start such operations again.

Peace meetings should also be continued. They might
