## English Translation TEST-1

If the world does not attract you towards itself, if from Allah's fear tears come into your eyes, if the thought of hell creates fear in you, if you worship Allah in a way it should be done, if goodness attracts you and your feet stop moving on the wrong path so then you are righteous. Some are righteous, some become righteous. It's fortunate to be righteous. To become righteous is continuous process of focus and struggle. It takes time and also hardships are endured.
