Title : Money : Not the Primary objective

Precis

It is extremely unlikely that a courageous man with high intellect would ~~reconsider~~ money his foremost objective of life. Knowledgeable humans find earning money more attractive rather than affluence itself. A few examples illustrate that a ~~good~~ brilliant soldier ~~is not~~ ~~forced~~ by ~~his salary~~ is focused on winning duels rather than his salary. Similarly trained doctors like having money but it is not their objective. They are more inclined ^{towards} ~~rather than~~ ^{saving} their patient ~~rather than~~ ^{instead of} getting paid ^{first}. Although money is secondary, job ^{is} first but not always the case.
