Translation paragraph

If world does not attract you, if your eyes fill with tears with the fear of Allah, if the concept of hell produces fear of Allah in you, if you worship Allah in the way you should do, if good deed attracts you towards itself and you stop yourself from following the wrong way then you are pious. Some people are pious and some pretend to be pious. It is good luck to be pious. To become pious is the process of continuous purification and efforts. It takes time and you have to bear difficulties.
