Campus: Islamabad

Title: Work over money

Work is more important than money for cultured people. A healthy man like dinner but main objective of their life is profession rather than earning bread and butter. A soldier fights bravely not for the pay but to win the battle. As Clergyman aims to baptize or guide not for money but for the welfare of mankind. Likewise, a doctor desires to cure his patient than to get fee. Thus, for all brave and educated people, fee is much ~~more~~ important but comes second, their duty is first.
